Durham District

North Carolina Annual Conference

The Methodist Church

Southeastern Jurisdiction

1950 - 1959

There were 113 churches in the Durham District in 1950. Since then, 50 churches have been transferred to other districts, most of them at the organization of two new districts in the conference in 1954. Thirteen churches have been transferred in from another district since 1950, seven new churches organized, and one re-opened. The 86 churches listed in this progress report include two which were discontinued in 1959, one of which was merged with a nearby congregation. Both had statistical reports in the 1959 Conference Journal.

PRODUCTION STORY

DURHAM DISTRICT

The Durham District includes the Methodist churches in Durham, Granville, Orange, and Person Counties and 12 fringe churches in counties lying principally within other districts. Orange County has two churches in another district and Person County has one church in another district. These are not included in this report. Six circuits have churches in two counties.

The following churches in the Durham District have statistical reports in the 1959 Conference Journal, and hence are included in this progress report:

Durham County: Andrews, Bethesda; Durham: Aldersgate, Asbury, Bethany, Branson, Calvary, Carr, Duke Memorial, Duke's Chapel, Epworth, Lakewood, Massey, Maybrook, McMannen's, St. John, St. Paul, Trinity, Wellons Village; Ellis, Fletcher's Chapel, Mt. Bethel, Mt. Sylvan, Mt. Tabor, River-view, Rougemont, Union Grove -- 27

Granville County: Banks, Bethel, Bullocks, Butner, Creedmoor, Gray Rock, Grove Hill, Oxford, Salem, Shady Grove, Stem, Stovall, Trinity -- 13

Orange County: Carr, Carrboro, Cedar Grove; Chapel Hill: Aldersgate, Amity, Orange, University; Chestnut Ridge, Efland, Eno, Hillsboro, Lebanon, New Bethel, New Sharon, Palmer's Grove, Pleasant Green, Walnut Grove -- 17

Person County: Allensville, Brookland, Brooksdale, Concord, Hurdle Mills, Lea's Chapel, Mt. Tirzah, Mt. Zion, Oak Grove, Roxboro:CaVel, Grace, Longhurst, Long Memorial, Woodsdale; Warren's Grove, Webb's Chapel -- 17

Fringe Churches: Alamance County: Hebron; Caswell County: Prospect (Cedar Grove); Chatham County: Bynum, Cedar Grove, Ebenezer, Mann's Chapel, Merritt's, Mt. Pleasant, Union Grove; Vance County: Hebron, Marrow's Chapel; Wake County: Soapstone -- 12

The district had a change of superintendents in 1953 and 1956. Change of pastors is shown for the end of the year in which each is indicated.

Prior to 1955, complete statistical reports were published only for charges, with a supplementary table, Table 3, showing a few principal items for churches on circuits. Membership change showed number received on profession of faith and total additions and removals. Church school data was limited to the single item of total enrollment. Therefore this study is restricted to these items for circuit churches from 1950 to 1955. Table 3 in a single column reported the two financial items, "amount paid for current expenses, incidentals, etc.," and "amount paid for church school administration, lesson materials, supplies, etc." These items were separated for this study, reference in each case being made to the totals reported by charges in the regular tables. The percentage figure at foot of Table 1, column 12, is percent net gain.

Removals of names from membership rolls by order of the quarterly conference ("by q. c.") was not reported separately until 1957; previously these were included in the column giving removals "by transfer and otherwise." Table 1 of this study conforms to this change in method. Money raised for pastor's travel and expense fund, reported first in 1953 and then only by charges, was prorated in this study (largely on the basis of pastor's salary) for circuit churches for 1953 and 1954.

"Church school" may include any desired number, or none, of a number of activities approved by the General Board of Education (see Discipline, 1956, par. 243), their selection being determined by each local Commission on Education. Therefore total church school membership may have little value for purposes of comparison of one church with another, since each may recognize an entirely different group of activities. This total also is not a safe measure of Sunday school attendance. In any year, the same church often shows a loss of church school enrollment and a gain in Sunday school attendance, or vice versa. Sunday school enrollment has not been reported in the Journal since 1952.

All finances are reported to the nearest dollar. Columns showing total indebtedness and money raised for building and improvement include parsonage as well as church property. In this study, money raised for payment on indebtedness is combined with that raised for buildings and improvements. Limited space does not permit a complete report here for all financial items for each church. The total of the first five columns of moneys raised may be regarded as a fair picture of what a given church raised for its own use. By subtracting this total from the grand total raised for all purposes, one may get a figure showing what the church raised "for others."

The 1954-1955 conference year consisted of only eight months, due to the change of the time of meeting of the Annual Conference. This is reflected in the membership changes and moneys raised for that year.

Errors found in pastors' reports as published in the Journal are marked with an asterisk (*). Most of these occur in reporting membership change. A few are simple mistakes in addition or subtraction. Sometimes, on circuits, there is indication that the pastor reported gains or losses for the wrong church, there being equal and opposite errors in two churches at the same time. Where these are in the same county, totals for the county summary are not affected. In a few cases, the number "reported last year" was interchanged between churches of a circuit and the error was not corrected in subsequent years. Actual gains and losses are used in computing net gain or loss for the period of this study. In case of error, this does not coincide with the pastors' reports. That is, the difference between the first entry of "reported last year" and the last "total at end of year" will not be the same as the actual net change.

In a number of cases, identical figures were reported for all divisions of the church school for two or more years in succession. This suggests that the figures were copied from the previous year's report instead of their being up to date. A preponderance of round numbers causes a suspicion of guessing.

When the number of members of the church school reported as joining the church on profession of faith is larger than the total number of members received on profession of faith in Table 1, the entry is an obvious error and is marked with an asterisk in the column "pupils join c."

W. S. C. S. membership frequently is not given, even though there is evidence that the church has a society. Sometimes, on circuits, the charge total is given, with none given for the component churches. These could be adjusted in county summaries if all churches were in the same county. But when several are omitted in a single county the summary shows a much smaller total membership than actually exists.

Obvious errors in the financial table, as in the apparent dropping or adding of a zero, are marked with an asterisk. Where possible, these too were corrected in compiling the county totals and for the county summaries.

It is evident that many boards of trustees fail to keep the pastor informed as to indebtedness and money raised for buildings and improvements. In a number of cases a church reports a large indebtedness in a certain year, and the next year no indebtedness is shown and nothing is reported as having been paid on indebtedness. In other cases the church valuation shows a tremendous increase during the period of study, while the amount reported paid for buildings and improvements during the same period is very small.

Estimated value of church property fluctuates greatly from year to year in many cases. On circuits this fluctuation may be the result of accidental exchange of figures between churches. But since this phenomenon frequently occurs also in station church reports, it seems more often to be the result of poor guessing without consulting the records.

A blank line is added to each table for each church. While it carries the stub "1960," it may be used for this or any subsequent year in any church for which further study of its PRODUCTION STORY is desired.
